MOPS! MOPS! WHAT'S IN THE BOX?

Take a moment to look closely at the mops you currently use.

Please place one on the scale.

Does it weigh what you expected ?

Are the threads holding the band **LOCK-STITCHED?**

(ie. can you pull threads or strands of the yarn out easily?)

Does it have a mesh scrub band?

Is it Manufactured in the good old U.S.A.?

Is the yarn quality clean & consistent?

(ie. is it bright in color or does it have too much foreign matter such as sticks and seeds in it?)

If you answer no to any of the above questions,
please call today for a current quotation on
Cotton, Rayon, Blended, Antimicrobial, Cut Ended
and Looper Mop Heads.

MALISH MAL-GRIT BRUSHES

These brushes have state-of-the-art synthetic fibers which are engineered to meet all floor maintenance applications. Mal-Grit XTRA is the most aggressive gritbrush on the market. Combining a heavier gauge nylon with larger grit granules, the Mal-Grit XTRA brush is ideal for industrial applications including concrete floors. Mal-Grit REGULAR is an aggressive grit brush that strips and scrubs both even and uneven surfaces alike. Mal-Grit Brushes must be run in a wet environment. Mal-Grit Brushes will not "LOAD UP" with old floor sealer or finish, due to their construction, giving you 100% efficient operation at all times. The "Showermaster Design" rinses the individual bristle and allows the stripped debris to be flicked off into the stripping solution, and will not hydroplane like woven and compressed floor pads, due to clogged mesh. "Tuff-Block" "Mal-Grit" Brushes will outperform 25 to 30 cases of Thick Stripping Pads AND clean up in seconds, with just water pressure from a garden hose and the "TUFF - BLOCK Showermaster" brush will not split, crack or delaminate from water or cleaning solutions.
